
Syllabus of C.N.C FANUC (Fundamentals + Advanced)

Day-1

Introduction CNC
Introduction CAD\CAM\CAE Software
Fundamentals of CNC Machine
Fundamentals of Lath Machine

Day-2

Interaction to CNC FANUC
Point Generating
Generating Point Table
Introducing CNC Codes

Day-3

Introducing CNC FANUC Environment
Generating G & M Codes
Assigning Codes for Generating Job
Structure of Tools & Tool Setting

CAD Academy.

email: nitin.pandya@cadacademycg.com

Day-4

Introducing Roughing & Finishing Methods
Introducing Central Drill Methods
Introducing Pack Drill & Bore Methods
LAB Session

Day-5

Introducing Grooving Methods
Introducing Step Bore Methods
LAB Session

Day-6

Introducing Thread Cutting Methods
Introducing MDI Methods
LAB Session

Day-7

LAB Session
Introducing 3Axis Machining & Methods

CAD Academy.
